

RITAR RT1272 12V 7.2AH SLA battery.

Ritar RT1272 12V 7.2AH SLA Battery 6.35mm Terminal.

RITAR replacement battery. It has high performance, high discharge design, a wide operating temperature range, and long expected service life. The replacement battery meets or exceeds the original manufacturer's specifications and ensures your quality, durability and performance satisfaction.

RT1272 is a general-purpose battery with a five-year floating design life and meets IEC and JIS standards. With a heavy-duty grid, thickness plates, and special additives, the RT series battery has a long and reliable standby service life.

RT1272 - Technical Data Sheet

- Stable Quality & High Reliability
- Sealed Construction
- Long Service Life, Float or Cyclic
- Maintenance-Free Operation
- Low-Pressure Venting System
- Heavy Duty Grids
- Low Self Discharge

Features

- Volts: 12V
- Amps (C20) : 7.2Ah
- Terminal: F2 tags 6.35mm
For the 4.33mm F1 tags connection, please use our part no. [RT1270](#)
- Size : 151mm L x 65mm W x 94mm H
- Weight: 2.15KG
- The package contains one battery
- SLA Chemistry
- Guaranteed compatibility with the original battery
- For UPS/EPS, medical equipment, emergency lights and security systems.
